PROFESSIONAL SUMMARY

Motivated Software Engineer with strong skills in Java, Python, and web technologies, combined with practical experience in software testing. Proven ability to analyze requirements, test features, and support development teams. Brings discipline, adaptability, and strong problem-solving skills suitable for large enterprise environments.

WORK EXPERIENCE

Software Testing Engineer — Full Time | Oppo R&D Hyderabad

June 2025 – Present

- Performed sanity testing on daily software builds for several device models, helping maintain stable releases across ongoing projects.
- Conducted functional testing to validate new features, UI flows, and system behavior.
- Identified defects early in the cycle, helping maintain stable daily releases.
- Coordinated with developers and QA teams to verify issue fixes before rollout.

INTERSHIPS

Testing Engineer Intern | Oppo R&D Hyderabad

Sep 2024 – May 2025

- Executed structured test cases covering functional, regression, and device performance.
- Reproduced complex bugs across multiple devices, enabling development teams to diagnose and resolve issues more efficiently.
- Tested new devices and OS upgrades repeatedly to ensure stable and reliable performance.

Front-End Web Technologies Intern | HQL EduTech

May 2023 – June 2023

- Designed responsive UI components using HTML, CSS, and JavaScript.
- Improved page layout and user flow by implementing cleaner structures and UI elements, resulting in a smoother navigation experience.

EDUCATION

B.Tech in Computer Science and Engineering | Bonam Venkata Chalamayya Institute Of Technology And Science
2021–2025 | CGPA: 8.65

Higher Secondary Education | Aditya Junior College, Amalapuram
2019–2021 | Percentage: 94

Secondary School | Ravindra High School, Mummidivaram
2018–2019 | CGPA: 10.0

TECHNICAL SKILLS

Testing: Sanity Testing, Functional Testing, Regression Testing

Tools: Android Debugging Tools, Bug Tracking Systems

Programming: Python, Java, C

Web: HTML, CSS, JavaScript

Databases: SQL

Platforms: ServiceNow

PROJECTS

- **Language Translator using Machine Learning** — Developed multilingual text translation using Google APIs, focusing on accuracy and seamless integration.
- **Online Food Delivery Website** — Created a complete platform with authentication, menus, cart system, and responsive UI optimized for user experience.

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA)
- ServiceNow Certified Application Developer (CAD)
- Basics of Python — Infosys Springboard
- Internet of Things — NPTEL
- Java Programming — Oracle

ACHIEVEMENTS

- Participated in Code Mania (Aditya University)
- Completed IoT Bootcamp (Ultrasonic Radar project)
