## Work Experience

08/2022 - 09\_2022

### \*I work in MarquisTech Pvt. Ltd. As Test Engineer.

Test Engineer with 2 years of hands-on experience in mobile device validation, telecom network testing (LTE, 5G NR, VoLTE, VoWiFi), test case execution, bug tracking, log analysis, and performance verification in live and lab environments.

### Prakash Diesels Pvt. Ltd ,agra, Uttar Pradesh

During vocational training at Prakash Diesels Pvt. Ltd , I have gain knowledge about how solar powers, diesels generator & Alternators are Manufactured and supplied domestically as well as internationally.

2. I have also seen what are the challenges that are faced by company while production such as inefficiency of workers, delay in production due to unwanted issues such as delay in raw material outsourcing, etc.

3. I have learned about how we can do team work to solve problems and how to do mass production efficient

It was a great experience because it helped me how a big company integrate various interests and achieve their goals in well organized manner.

And my project is Road accidents rates are very high nowadays , especially two wheelers . Timely medical aid can help in saving lives. This system aims

GSM Based Accident Alert System,- (final year project name)

Road accidents rates are very high nowadays , especially two wheelers . Timely medical aid can help in saving lives. This system aims

to alert the nearby medical center and about the accident to provide immediate medical aid. It also sent messages to the guardian of

the driver. The attached accelerometer in the vehicle senses the tilt of the vehicle and Thus the systems will make the decision and

sends the information to the smartphone , connected to the accelerometer through gsm and gps modules
